# Limón

## Rubinetteria / taps

agape Limón

design Patricia Urquiola, 2021

## Limón: fresche geometrie / Limón: grafting geometries

L'incontro e l'unione con **la propria sezione circolare**, come nella tradizione dell'innesto agricolo, trasforma le geometrie apparentemente elementari di Limón in qualcosa di completamente diverso. Una nuova e fresca tipologia di rubinetti che comunica la propria struttura e la destinazione d'uso con inusuale **onestà e chiarezza**.

Limón è un altro episodio del percorso di ricerca di Patricia Urquiola nello **smontare e poi ricomporre geometrie** dalle qualità scultoree, iniziato con il lavabo a colonna Lariana seguito dal sistema Rigo.

Meeting and mating with **its own circular section**, just like in the age-old concept of agricultural grafting, has transformed the seemingly elemental geometries of Limón in something completely different. A new and fresh breed of taps that communicate its structure and intended use with unusual **honesty and clarity**.

Limón is an other episode in Patricia Urquiola's research path in **disassembling and then re-composing geometries** with sculptural qualities that started with the Lariana column washbasin followed by the Rigo system.

## Limón: nuove geometrie / Limón: new geometries

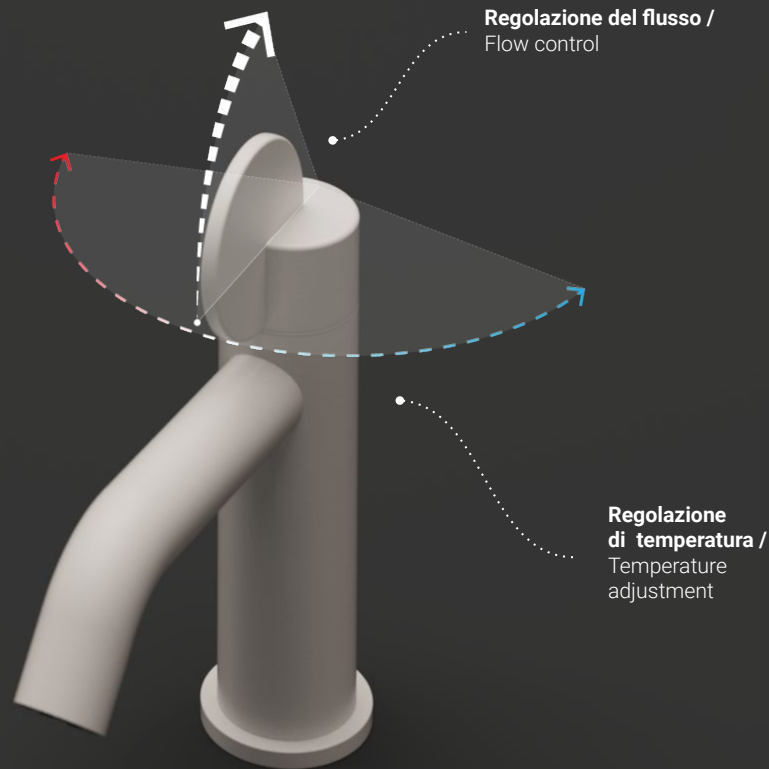

### Movimenti convenzionali / Conventional movements

Il miscelatore monoforo per piano Limón funziona nello stesso modo del nuovo Memory Mix: verso l'alto e basso per il controllo del flusso e sinistra/ destra per la regolazione della temperatura.

Le diverse posizioni che segnano le temperature possono **dare vita a configurazioni interessanti** e quasi scultoree dell'intero oggetto.

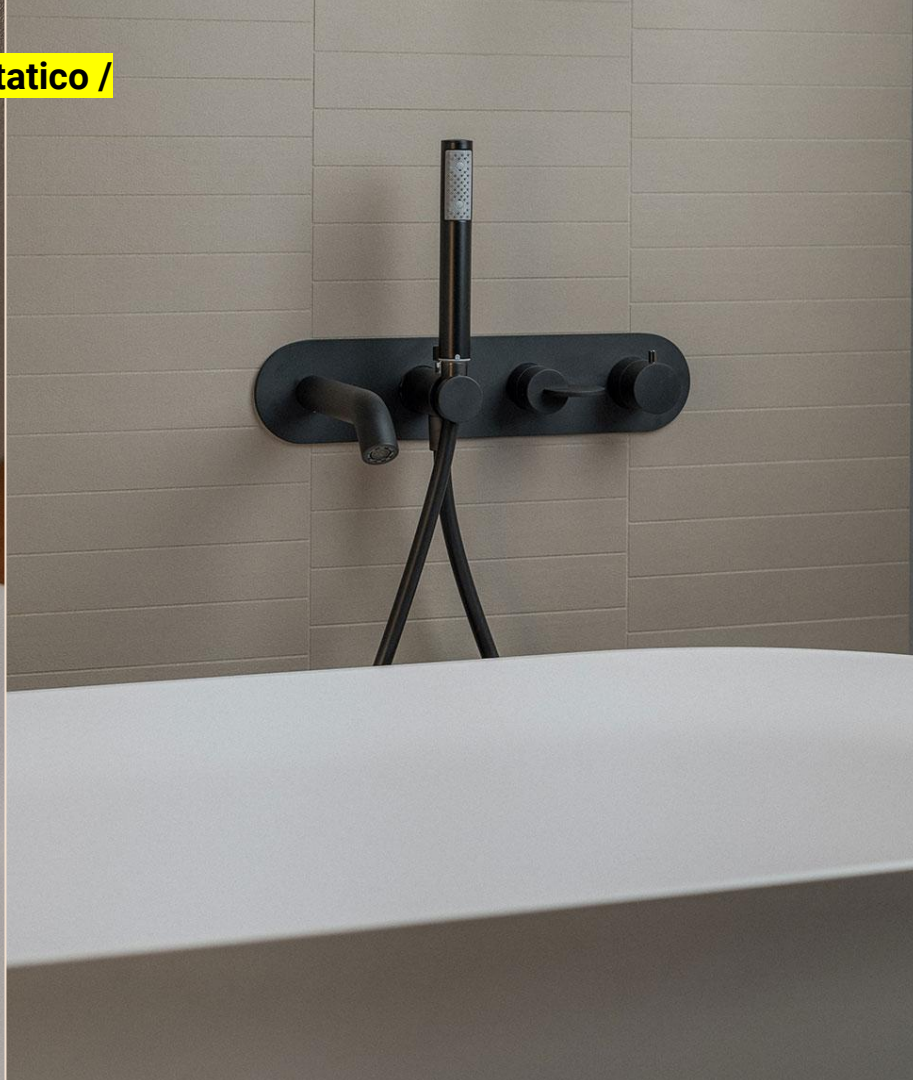

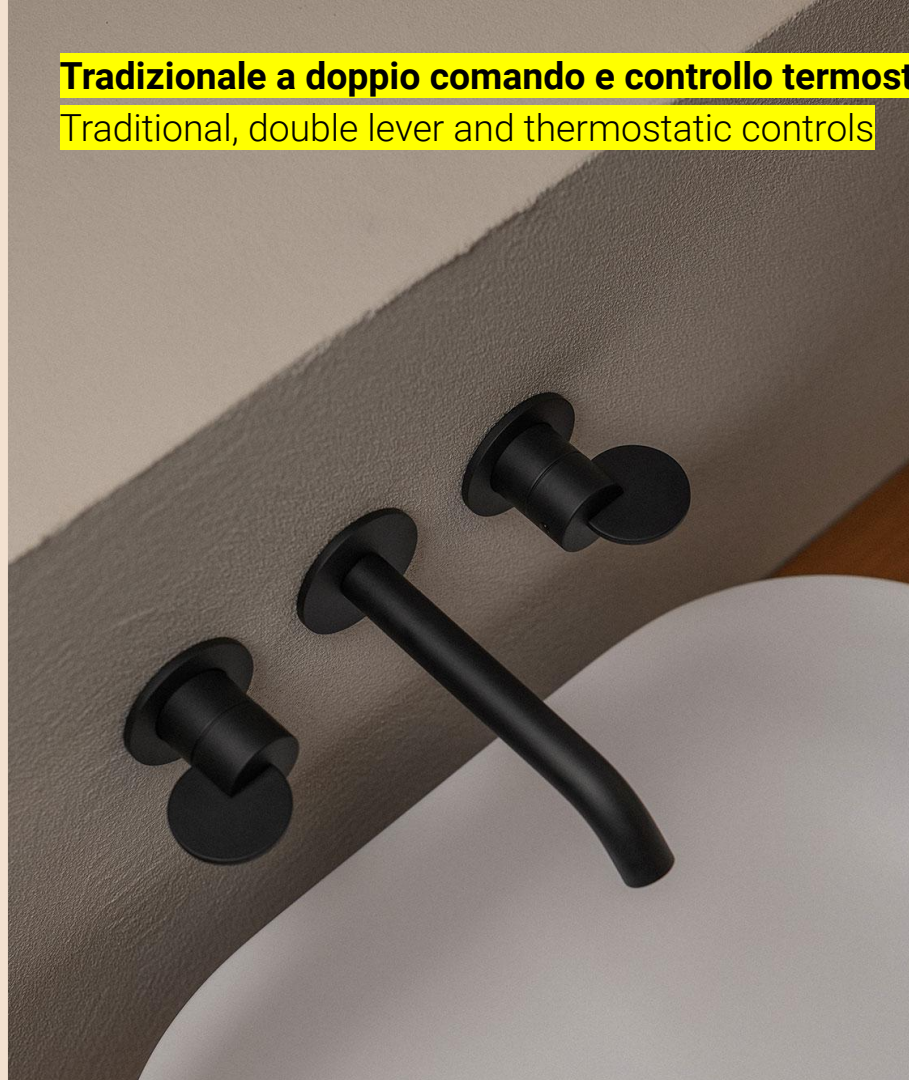

.....  
The Limón single-hole countertop mixer works in the same way as the new Memory Mix: up and down for flow control and left/right for temperature control.

The different positions that mark the temperatures **can result in interesting**, almost sculptural configurations of the entire object.

**Tradizionale a doppio comando e controllo termostatico /**

**Traditional, double lever and thermostatic controls**

# Limón: una gran varietà di finiture / Limón: a great variety of finish

# Memory Mix

## Rubinetteria / taps

Memory Mix

design Benedini Associati, 2021

## Memory Mix: una nuova maniglia / Memory mix: a new handle

### Un nuovo scenario d'uso / a new usage scenario

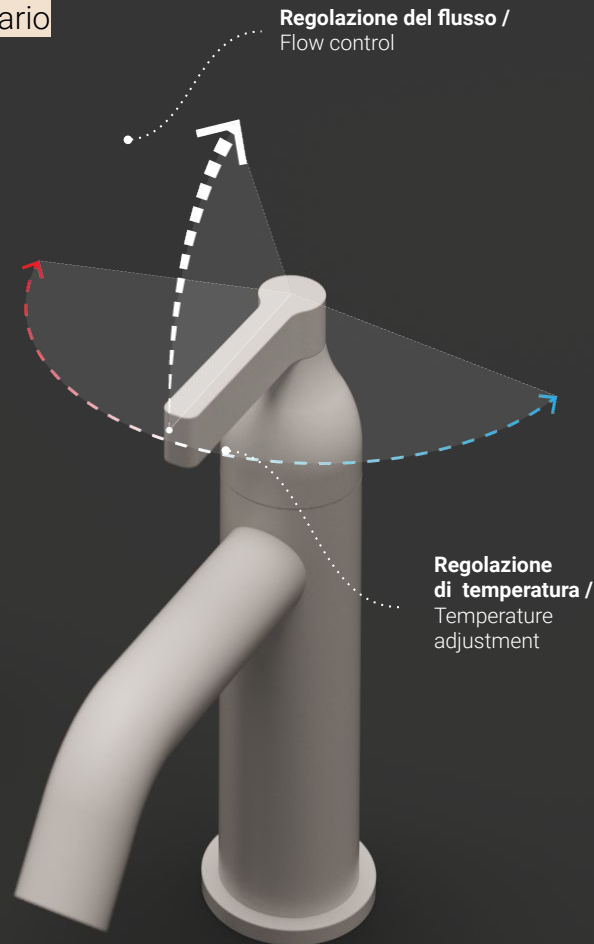

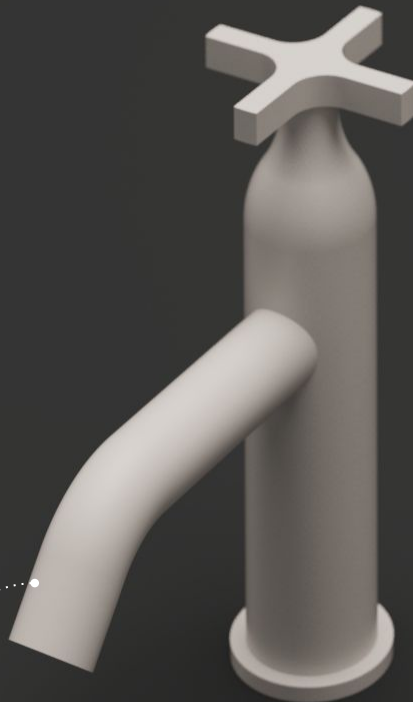

La nuova leva Memory Mix è pensata per essere utilizzata con i **tradizionali miscelatori a leva singola e doppia**.

Il rubinetto progressivo sarà ancora disponibile con le maniglie a croce.

The new Memory Mix series is meant to be used with **conventional single and double lever mixers**.

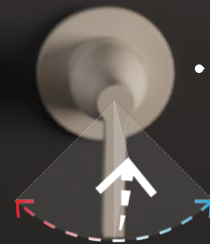

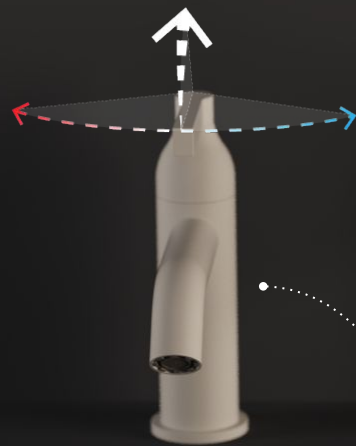

The gradual flow control mixer is still available with the cross shaped handles in the Memory series.

**Memory**  
monoforo progressivo /  
Memory gradual  
flow control mixer

## Memory Mix: una nuova maniglia / Memory mix: a new handle

Un nuovo scenario d'uso / a new usage scenario

Leva singola per  
montaggio a muro /  
Single lever for wall  
mounting

Leva singola per  
montaggio su piano /  
Single lever for  
plan mounting

**Disponibile sia per installazione su piano che a parete /**  
**Available for both plan and wall installation.**

## Memory Mix: family feeling / Memory mix: family feeling

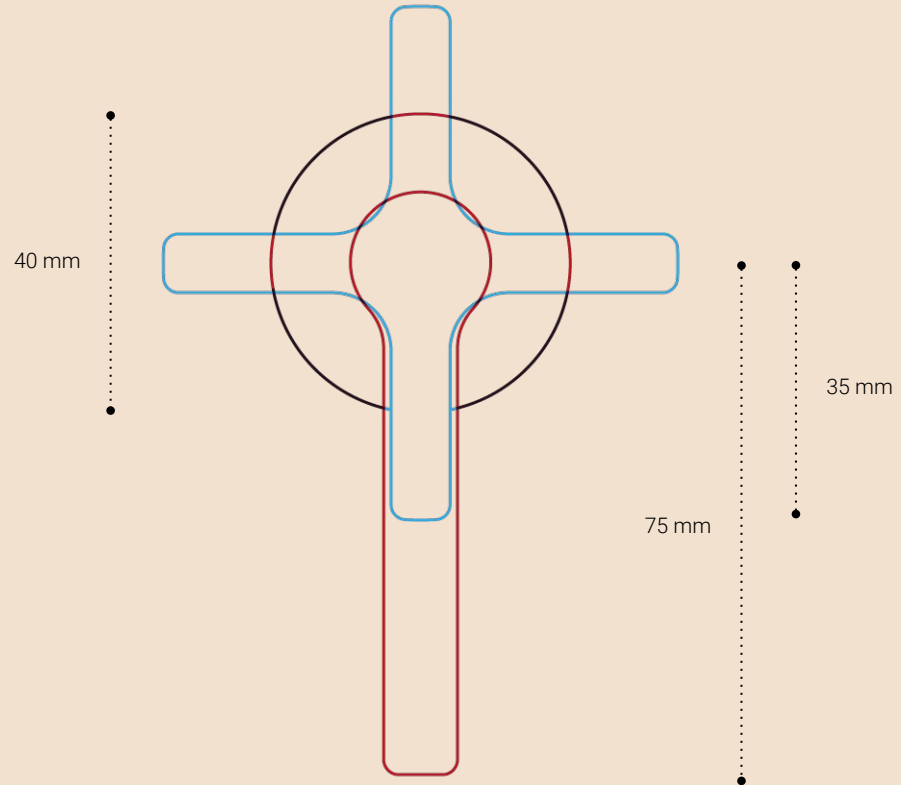

### Design derivato / Derivative design

La nuova leva **prende la sua forma** direttamente **dalla iconica maniglia a croce** della serie Memory.

La nuova leva singola è lunga il doppio di un braccio dell'impugnatura Memory "convenzionale". La sua larghezza è stata regolata e leggermente allargata per essere **ergonomicamente coerente** con il nuovo modello di utilizzo.

The new lever **derives its shape** directly **from the iconic cross-shaped** handle of the Memory series.

The new single lever is twice as long as one arm of the "conventional" Memory handle. Its width had been adjusted and slightly widened to be **ergonomically coherent** with the new usage pattern.

**Memory Mix: family feeling** / Memory mix: family feeling

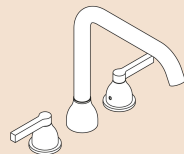

**Design derivato** / Derivative design
