OUR DESIGN

APPROACH

We create chairs, tables and furnishings
for community, work and home.

We explore design to improve relationships
between people and spaces,
by creating timeless, durable products
for the world we want to live in

We only collaborate with designers who share our human-centered design philosophy

Our 6 design rules inspire
everyone and every day in Arper

Balance

Intuition

Family

Color

Light

Play

Balance

The point where different attributes and opposite concepts find common ground. From equilibrium, harmony. Calm, serene, consistent.

Intuition

The space between feeling and knowing, comfort and beauty. Ease born of sensitivity. Technology as a means to an end, not as an end in itself.

Family

Similar, but not the same. Systems within systems, unity within diversity. A collective whole.

Color

Color is not color alone—it's a play of texture, shape, context, and dimension. Color yields personality: emotion made visible.

Light

A quality and a value; a way of seeing and a state of mind. Luminous, clean, natural, elegant.

Play

Pleasure in expression, pleasure in restraint. Joyful creativity, inspiration, imagination, wonder.
