OUR WAY TO THINK "OUTDOOR"

A project by Contardi

Contardi interprets the outdoor collection as the way to bring interior design to the open-air.

The aim is to keep the same characteristics of the indoor products, both from an aesthetic, decorative and tailoring point of view, which are the main traits of the brand, and without forgetting the pragmatic aspect, i.e. the intended use.

The result is highly refined and reliable lighting, that contributes to ornate and enrich natural locations, while creating a strong bond between them and the indoor spaces.

ASSEMBLY INSTRUCTIONS

HOW IT WORKS

Just two simple steps to fix the battery pack to the structure and light up your Cube Battery:

1. Position the cylinder into the designated slot.
2. Rotate the cylinder in order to let the screws placed on the top of the cylinder line up with the magnets placed inside the slot.
