LEDA

design **debonademeo**

LEDA, a LED with a feminine touch. The myth of Leda and the Swan comes back in a brand new meeting of poetry and technology.

A collection of lamps that decorate the rooms like jewels on a woman's body and convey light through curved shapes like a swan's neck.

This project is the result of a distant memory. A warm mid-summer afternoon in Sassocorvaro – one of the many magical Italian villages – and its river.

The awakening of sounds, scents, happy shouts and carefree days spent playing with friends, between the running water and those funny ornamental water plants.
