Hono

^{EN} Lightness and elegance are the earmarks of Hono, the result of the minimalist aesthetic that has always set these designers apart. From the Japanese word for “flame,” its light – and the materials used in the production of this lamp – suggests the warmth of a glowing lantern. It consists of a slender metal structure, made up of a cylindrical base and a thin stem that houses a LED in source that spreads the glow at 360°.

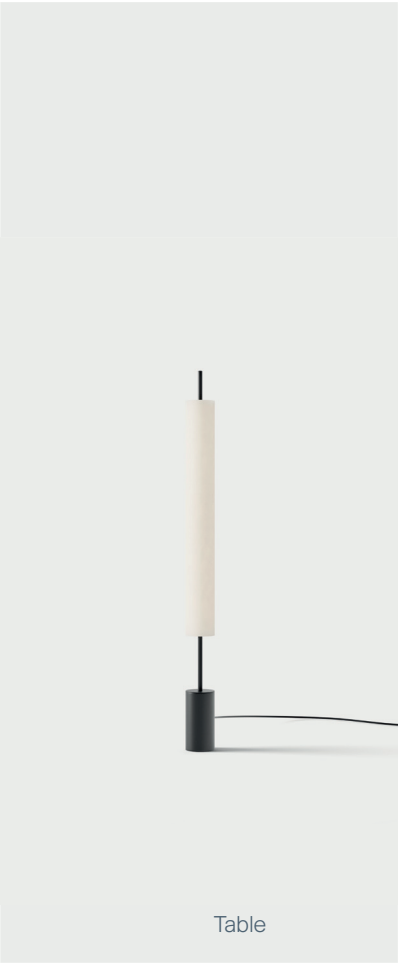

The more technical and rigorous body of the lamp is combined with an ethereal diffuser made in 100% cotton paper, whose delicate power of emission generates a relaxing, immersive atmosphere. In addition to the floor, ceiling, and table versions, the family now includes a new horizontal suspension version (140 cm) and a vertical one that can also be installed on a track with a practical adapter.

^{IT} Leggerezza ed eleganza sono il tratto distintivo di Hono, frutto dell'estetica minimalista che contraddistingue da sempre il lavoro ei designer.

Dal giapponese “fiamma”, la sua luce - come i materiali impiegati per la realizzazione di questa lampada - rievoca il calore di una lanterna animata dal fuoco. Consiste in una struttura metallica longilinea, composta da una base cilindrica e un sottile stelo che ospita una sorgente LED in grado di distribuire la luce a 360°.

Al corpo lampada, più tecnico e rigoroso, viene associato un diffusore etereo in carta 100% cotone che dona agli ambienti un'atmosfera rilassante grazie al suo delicato potere diffondente. In aggiunta alle versioni terra, soffitto e tavolo, entrano a far parte della famiglia una nuova versione sospensione orizzontale (140 cm) e una verticale installabile a binario con il pratico adattatore.
