

CON TARDI[®]

INTENDED USE:
READING

"Contardi for reading"

Headboard reading lamps represent a very important category for Contardi, as they respond to a real need, whether in a residential or in a hospitality project.

The idea to produce a variety of models with this specific function comes from the company's great deal of experience in contract sector, where functionality is a priority.

At the moment, Contardi offers 7 models, that is to say 44 products considering the several declensions in size and finish, with such technical and qualitative characteristics making it one of the widest selections available on the market.

FLEXILED AP

CONTARDI®

Contardi's icon, no doubt the most known and specified of our models worldwide, used in some of the nicest Hotels, Yachts and Homes. The functional and flexible become couture and fashion, thanks to the soft leather and the visible stitching. **Thicker lens for a diffused light effect, flat lens for a spot light effect (on demand)**. Also available in other leather colours, on demand and according to availability, starting from **10 units**.

MANHATTAN AP

CONTARDI®

Metropolitan design, where classic and modern merge.
Functional light, double pivotant arms and adjustable head.
Also available in RAL finishes, on demand, starting from 10 units.

DUOS AP

Originally made for the Sofitel Hotel in Mandelieu (near Cannes, France).
It provides **one light for reading through the adjustable spot and one indirect light, top and bottom of the shade.**
Also available in RAL finishes, on demand, starting from **10 units.**

TATA AP

CONTARDI®

Originally made for the boutique Hotel "Excelsior", in Pesaro, on the Adriatic coast (IT), Tata is inspired to the Scandinavian design of the 50s and 60s. **Double illumination, adjustable head.**

Also available in RAL finishes, on demand, starting from **10 units**.

UP AP

CONTARDI®

UP is tailored and timeless, enriched by silk details and precious finishes. UP is a full range range that includes the Floor, Desk and this Wall-Reading light. **Adjustable up and down, right and left, switch on board.** Also available in RAL finishes, on demand, starting from 10 units.

BELLE AP MINI

CONTARDI®

A functional little sculpture, BELLE MINI belongs to the BELLE product family. The glass shade houses a LED integrated light, suitable for reading. The head is adjustable, up and down, left and right.

MIKADO AP SOLO

CONTARDI®

The wall light with **double illuminating function**: atmosphere lighting through the engraved crystal upper shade and reading light thanks to the specific lens in the lower part. The body is in vintage effect antiqued brass. Mikado is compatible with lighting control systems.

BEAM TA

CONTARDI®

BEAM TA represents a step forward in the evolution of the "task light". Lamps for writing desks and bedsides belong to this group. Innovation: **Contardi has chosen to move the light, not the lamp.** Through the switch in its three different phases, the light becomes adjustable and in can be moved in order to suit the needs of the person that is using it, without having to move the structure.

SOLITARIO SO (SPOT SPHERE)

CONTARDI®

The SOLITARIO system, within its versatility, can also be used as a bedside reading light, by using the "spot effect" diffuser that narrows the beam providing the right light for reading. Contardi is pleased to suggest this alternative solution to the traditional bedside wall lamps, in order to show how the functionality and the scope are essential and prior.
