Severin*s - The Alpine Retreat (Austria)

INTRO CUSTOM MADE SOLUTIONS FOR HOSPITALITY

Dear Designer,

We are pleased to present the “Contardi CONTRACT CATALOGUE” which confirms our increasing range suitable for the Hospitality Sector.

Over the past three years we have been producing a wide range of products for Hotel projects all over the world.

The requirements are always varied including the different styles, materials and budgets.

We have selected some of these customized fixtures supplied for previous projects that we feel have an intrinsic value and function thus offering alternative solutions for new design briefs.

This is a “work-in-progress” collection which will be updated regularly throughout the year in the hope it becomes a valuable source for the Designers regularly involved in the FF&E processes.

Naturally, there will be minimum quantities required to manufacture these models.

We would like to thank all the Designers who have so far participated with this initiative and also for those who will do so in the future.

TABLE LAMPS

The image features three modern table lamp bases in the foreground, each with a clear, faceted glass top and a polished metal stem. They are positioned on dark, rectangular wooden blocks. The background is a blurred industrial setting with various metal structures and pipes. The brand name 'contardi' is centered over the image, preceded by a red circular logo with a white 'C' inside.
