

® G.T.DESIGN. for Hospitality, Marine & Retail

Architecture and Hospitality

The great variety of products that we offer, all of which can be produced in a vast range of different, high quality textures, has confirmed our reputation with many architecture firms around the world, which come to us for 'custom textiles' to suit their needs in high residential and hospitality projects.

Retail

Our collections offer elements which go 'beyond' fashion, offering a freedom of style which is a great asset when it comes to interior design. It is thanks to this production philosophy that in recent years the company has forged interesting partnerships with some leading international retail firms: Christian Dior, Calvin Klein, Benetton Group.

In today's world, privilege means the opportunity of living with intelligent materials that are flexible and adaptable to designers needs and represent the height of sophisticated minimalism even for public areas and high traffic use.
