Markis

^{EN} Markis is a new linear suspension lamp with a light yet rigorous structure, combined with a fabric shade that brings a sophisticated touch and emphasizes the duality of this technological and refined product. The composition of three stems – two at the base holding the fabric and the upper one functioning as a tensioning element – along with the “T” shaped ends, define its prismatic form. Two structures can also be connected by a joint, permitting the creation of broader linear configurations. Elegantly fitting into any environment, Markis offers different optical solutions: one with an LED source screened by opaline diffuser for homogeneous indirect lighting; and another that integrates a UGR optic. In line with its versatility of performance and installation, it comes in two finishes for the structure and three for the fabrics.

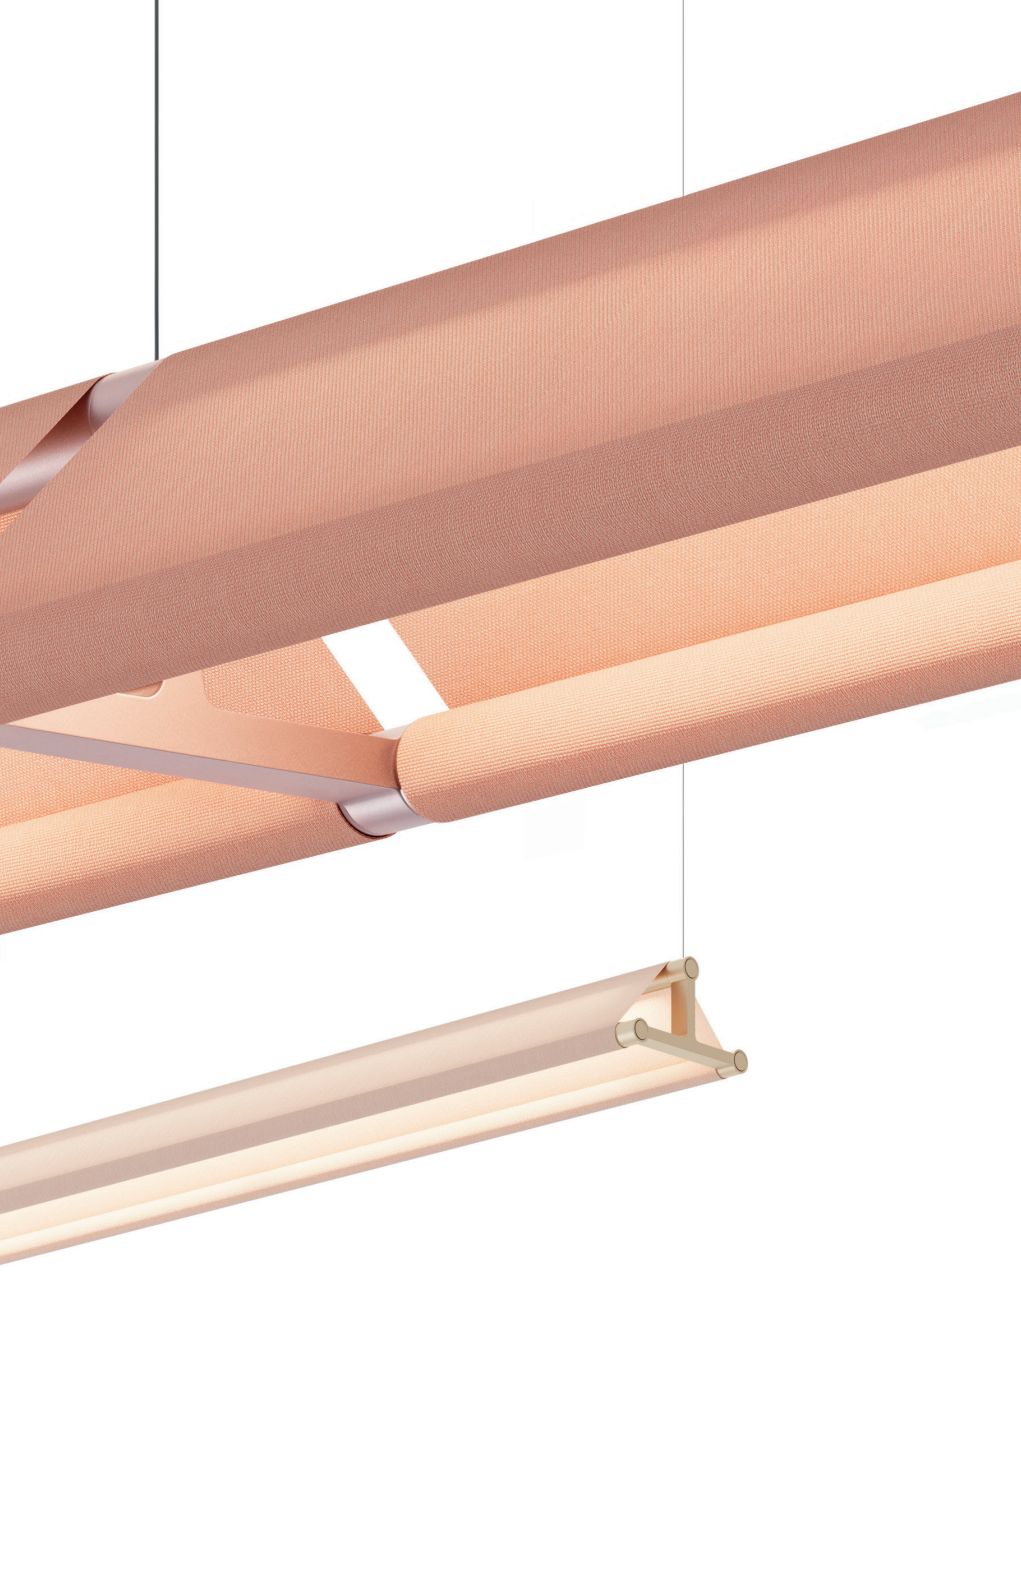

^{IT} Markis è una nuova lampada a sospensione lineare dalla struttura leggera ma rigorosa, abbinata a un paralume in tessuto che aggiunge un tocco sofisticato e accentua il dualismo che caratterizza questo prodotto tecnologico e raffinato. La composizione a tre steli - due alla base che trattengono il tessuto e quello superiore che funge da elemento di tensionamento - e le testate a “T” definiscono invece la sua forma prismatica. Consentendo di creare configurazioni lineari più estese, due strutture possono inoltre essere unite grazie a un giunto. Inserendosi con eleganza in qualsiasi ambiente, Markis offre ottiche differenti: una sorgente LED schermata da un diffusore opale che garantisce una luce indiretta omogenea; una che prevede l'integrazione di un'ottica UGR. In linea con la sua versatilità illuminotecnica e installativa, è disponibile in due finiture per la struttura e tre per i tessuti.
